About Us

The Meghalaya Dev Community is a young and technology-driven community in Meghalaya to nurture, motivate and encourage young people in the Computer Science and Information Technology field.

We are an open community for developers, UI/UX designers, tech enthusiasts and anyone who is interested in technology.

Our Goals

To encourage and promote open source development, to bring developers, designers and other people together to interact and share their knowledge, ideas and interests.

To organise meetups and webinars, both online and offline.

To provide a network where young people can connect and interact with each other, get updated with the latest news and updates in the computer science field, to find potential work opportunities and discover the best tools and practices.

Dev.Connect 2022

The first Developers & Graphics Designers Meetup. Dev.Connect is the name of our offline meet-up event.

An event where developers, UI/UX designers, students, teachers, hardware enthusiasts and people interested in technology can come together and connect, share their hobbies and interests. To provide a platform for anyone to showcase side-projects, share ideas and knowledge.

1. ### Technical Talk

    One Technical Talk of 20 minutes, Knowledge sharing on any topic related to Information Technology or Computer Science, followed by a Q & A session. Talk is open to anyone and the registration link is available on our website.

2. ### Showcase Session

    A Platform to showcase side-projects, share ideas, knowledge and participants interests. The Registration link is also available on our website, participants who wish to display their app or digital art or any other item can do so during this session and each participant will be given 5 minutes to display their item.

Who can Register for Dev.Connect 2022?

Developers, Graphics Designers, UI/UX Designers, IT Admin, IT Networking & Security Experts, Teachers, Students, Research Scholars and anyone who is interested in technology.

Why have this event?

To provide developers, designers a place to be social, to interact and talk about any topic in or outside their field

- To create an active community
- It's not just about a single dev, it's about coming together, sharing your experience, sharing your visions and more
- To promote open source development
- To showcase local dev apps that can help society
- To organise any other smaller events
